Listen

Last Modified September 05, 2023

Some people may find it easier to have this website read to them.   Windows, Mac OS and Chrome OS all have inbuilt tools that can do this for you.

Listen to this website with Narrator for Windows

Windows comes with a basic screen reader called Narrator, which reads text on the screen aloud and describes some events (such as an error message appearing) that happen while you're using the computer.

Listen to this website with VoiceOver for Mac OS X

In newer versions of Mac OS X there is assistive screen reading technology already built into the operating system called VoiceOver.

Listen to this website with Spoken Feedback on Chrome OS

In Chrome OS there is a synthesized speech feedback option built into the accessibility features

Listen to this website on an iOS device

There are a wide range of accessible features on iOS devices such as iPhone and iPad.

Listen to this website on an Android device

The Android operating system also has a wide range of accessibility options to help the user
