

# Commercial Waste Containers

## Sack Collection Service

Blackpool Council Commercial Waste offers a sack collection service for customers without sufficient storage space for a bin.

The sacks come in packs of 50.

In June 2011 we greatly improved the size and grade of the sack and also reduced the price!

You can now buy sacks online and a Trade Waste Officer will deliver them to you within 3 working days!

## Trade Waste Containers

Trade containers are ideal for most businesses and we have a wide range to offer, from 240 litre wheelie bins (same size as a general waste household bin) all the way through to the huge 1280 Euro bin. Here are some key points for all of our plastic containers:

- Manufactured from new basic material only,
- Resistant to UV, cold, heat and chemicals,
- Well-placed handles for convenient handling
- Smooth-running, solid rubber tyres on 200 mm heavy duty castors
- All metal parts have been galvanised and are therefore protected against corrosion.

### 240 Litre Wheelie Bin

Height - 1062mm, Width - 577mm,  
Depth - 715mm

Holds 3- 4 black bags
