Domestic abuse is any incident or threatening behaviour, violence or abuse (psychological, physical, sexual, financial or emotional) between adults who are, or have been, intimate partners or family members, regardless of gender or sexuality.

- 1 in 4 women and 1 in 6 men will suffer domestic abuse at some point in their lives
- A victim will be assaulted on average 35 times before they call the police
- There is a domestic abuse incident reported to the police every minute, yet less than 35% of domestic abuse is reported
- On average, 2 women every week are killed by a partner or ex partner and domestic abuse is a factor in 1 in 4 suicide attempts by women
- Domestic abuse often starts or intensifies during pregnancy and is one of the main causes of miscarriage
- In 90% of domestic abuse cases, children are in the same or next room and often get hurt too
