Energy efficiency grants

Last Modified February 17, 2026

Cosy Homes in Lancashire

Blackpool Council is working with local authorities in Lancashire to help households access funding for energy-related improvements to their homes.

If your property is suitable, you may be entitled to free energy efficiency improvements, including air source heat pumps, solar panels, battery storage, and insulation measures.

Warm Homes local grant

The government's Warm Homes: Local Grant is now available to Blackpool residents.

This means that you could make improvements to your home, with zero cost to you, as Cosy Homes in Lancashire will pick up the bill to help you be warmer and more comfortable at home.

If you and your property are eligible, the following energy efficient measures may be covered by the grant:

- Insulation (solid wall insulation, loft/cavity, room in roof and underfloor)
- Renewable heating technologies
- Energy efficient external doors and window upgrades (subject to recommendation from a retrofit assessor) Solar PV

You may be eligible if:

- Your property has a low Energy Performance Certificate (EPC) rating of band D, E, F or G
- You own the home (including private landlords and park homes on residential sites)
- Are a private tenant
- You are in receipt of any benefits **or**
- The occupants of the home have a combined gross annual household income of less than £36,000 per year **or**
- Your property is in an [eligible postcode area](#)

Cosy Homes advice team

If you want to save energy, reduce your bills and have a greener, warmer home the Cosy Homes advice team are here to help.

They offer free, council-backed support to help you save energy and money at home. The service includes:

- Finding the best energy tariffs to lower your bills
- Dealing with common issues like damp and mould
- Simple changes to boost energy efficiency and reduce bills
- Understanding which grants and funding could be available to you and supporting your application
- Referrals to local services for personalised, face-to-face assistance
- Understanding your current heating system
- Understanding new low-carbon technologies, such as solar panels and heat pumps, including how they work and how they could fit into your lifestyle and home
- Free home visits to install small measures, including the Little Van of Warm
