Access update. Blackpool Central development - Seaside Way closure to Central Car Park

Changes to access

Due to the necessary closure of Seaside Way at Chapel Street, the Central Car Park coach station will only be available for scheduled services from May .

Scheduled services are recommended to exit Seaside Way at the Bloomfield Road junction, as shown on the map below, and proceed on to Central Drive. The coach station will only be accessible from Central Drive and after turning within the coach station area, vehicles will also leave on to Central Drive. Vehicles will have a choice exiting left or right on to Central Drive, depending which is most convenient.

If you are intending to run a scheduled service into the Blackpool coach station during 2025, please let the council know on the contact number below and your service will be facilitated. Your services into our resort are very important to us.

All other operators and services will be accommodated in the northern end of the Foxhall Car and Coach Park – which many already use. If this facility becomes full, further coach parking will be available at the Seaside Way ([where public toilets are available](#)) and the South Car Park.

The new multi-storey car park will facilitate a new and vibrant visitor attraction for Blackpool. Construction work is still ongoing which means that no access to Central Car Park will be in place for the foreseeable future.

Please note that for town centre drop off and layover, a signage scheme will take you to the Banks Street Coach and Car Park adjacent to Dickson Road. Parking staff will ensure that sufficient space is available in these areas, as regular visitors will be aware. Pedestrian routes will be signed from these drop off points.
