Electric vehicle charging in Blackpool

Last Modified September 19, 2025

Discover convenient EV charging sites in Blackpool

Blackpool Council does not own or operate any of the charging systems at these locations, even the devices installed on council operated sites.

For all enquiries, please contact the charging equipment operator directly. Their contact details can usually be found on the charging equipment or the nearby display board.

Where to find charging points

Southshore Squash and Cricket Club	Common Edge Road	No	2	2	N/A	Yes	N/A	N/A	Yes	N/A	Blink

Charging times and types

The charging time for your electric vehicle depends on several factors, including:

- The type of charger used
- The size and health of your vehicle's battery
- The amount of charge required

Different chargers offer varying speeds:

- Rapid charging: Provides around 80% charge in under one hour
- Fast charging: Takes 4 to 6 hours for a full charge

Please note that your vehicle can only charge at the maximum rate it can accept. For instance, if your vehicle's maximum charge rate is 7kW, it will not charge faster on a 22kW charge point.

Parking during charging

When using council-operated sites, **make sure to have a valid** pay and display ticket, parking permit, or have an active session in the Pay by Phone app while your vehicle is charging.

Once the charging is complete, please remove your vehicle from the charging bay as per the usage terms specified for each site.

Costs

For the latest information on tariffs and pricing, refer to the supplier's app or website.
