\* The Part P additional charge should be added when a person who is not a Part P registered electrician carries out notifiable electrical work.

## Part P

Any notifiable fixed electrical installations which form part of your proposal should be carried out by a registered Part P electrician. If not, your application fee will be subject to an additional fee as indicated in the schedule above. For further information please contact the [building control team](#) | .

A Part P registered electrician is a qualified electrician who is registered under a government approved competent persons scheme. In order to recover the local authority costs the additional charge is payable if anyone other than a Part P registered electrician undertakes the electrical work.

## Notes

1. The erection of a dormer window includes any works to raise the height of any part of the roof as part of the proposal. This includes changing a hipped roof to a gable or any works to increase the head height available by lifting the roof.
