# Why choose Blackpool building control?

Last Modified March 13, 2020

## Introducing Blackpool Building Control

Unlike private companies, Blackpool Council's Building Control team are non-profit making whilst still providing a customer focused, proactive, cost effective and efficient service.

We are able to offer a comprehensive and effective package of services to ease the path to building regulation approval and early completion of your project for residential developments, domestic or commercial projects.

Our team possess a vast depth of technical expertise and a customer friendly approach that has played a major role in delivering safe, accessible, sustainable and innovative buildings throughout Blackpool. We are here to help development not hinder it.

Building control can be split into three types of developments:

- [Residential development / Housing](#)
- [Domestic extensions and alterations](#)
- [Commercial projects](#)

Please see our [case studies](#) page.

We nominate projects that recognise quality design and construction into the North West Regional Awards.
