Authority Monitoring Report 2014

1.0 INTRODUCTION

1.1 This is the 11th Authority Monitoring Report (AMR) for Blackpool Council. It serves as a tool for monitoring planning policy and implementation and informs the Local Plan process. The Council is required to produce an AMR in line with section 113 of the Localism Act 2011.

The role of monitoring

1.2 In order for the Council to know whether planning policies should be retained, amended or discarded, it is important to ensure:

- Policies are properly implemented
- Policies are helping achieve the objectives and targets set out in the Plan
- Policies are not having other unintended consequences
- The evidence, assumptions and objectives on which policies are based remain relevant

1.3 The AMR assesses progress in the preparation and implementation of planning policies against the local planning authority's published Local Development Scheme. The policies are also assessed against the delivery of national and local policy objectives.

Planning Policy and monitoring

1.4 Blackpool Council and its partners are committed to creating a new Blackpool that truly lives up to its claim to be a great place to live. Blackpool's transformation will not be delivered unless appropriate objectives and targets are defined and the right planning policies are drawn up, effectively implemented and regularly reviewed. In this context, effective monitoring is vital.

1.5 The 2014 AMR reports on the monitoring period from 1st April 2013 to the 31st March 2014, its main focus being:

- to examine the implementation, effectiveness and relevance of policies in the current Blackpool Local Plan (adopted 2006); and
- to commence monitoring the policies in the new Blackpool Local Plan Part 1: Core Strategy 2012 – 2027.

1.6 Blackpool's AMR builds upon the important Local Plan monitoring work, traditionally undertaken in such areas as the annual housing survey; employment land availability survey and retail monitoring.

Authority Monitoring Report 2014

Structure of the Authority Monitoring Report

1.7 The AMR contains the following sections:

- **Section 2 - Blackpool Context**
A snapshot of Blackpool's social, economic and environmental characteristics which highlight some of the key issues facing the town
- **Section 3 – Blackpool Local Plan (2006)**
Policy Objectives - 15 objectives are identified as the focus for Local Plan monitoring;
Indicators and Policy Analysis - Under each policy objective heading, Blackpool's performance is assessed against core output indicators/local output indicators; significant effect indicators (derived from the sustainability appraisal); and relevant Local Plan policies used to determine planning applications.
- **Section 4 – New Blackpool Local Plan Part 1: Core Strategy 2012- 2027**
Policy Objectives - 21 objectives are identified as the focus for the new Local Plan monitoring;
Indicators and Policy Analysis – Under each emerging policy Blackpool's performance is assessed against output indicators and relevant local plan policies
- **Section 5 – Local Development Scheme Progress**
- **Section 6 - Duty to Co-Operate**
- **Appendices:**

2.0 BLACKPOOL CONTEXT

Population

2.1 Located on the Fylde Coast, Blackpool covers an area of just under 14 square miles. Approximately 80% of Blackpool's urban area is developed. There is limited open space particularly in the intensely built up inner area. Beyond the built up area, approximately 56% (240 hectares of land) is protected by Green Belt, Open Space or SSSI/Reserve.

2.2 With a resident population of 141,976¹, Blackpool is the third most densely populated Borough in the North West behind authorities covering the central area of Manchester and Liverpool and the seventh most densely populated Borough in England and Wales outside Greater London². The population of Blackpool fell from an estimated 147,600 to 141,976 in 2012. During this time the estimated North West population grew by 1% while the rest of the U.K grew by 5.5%³. The ONS Population Survey estimates that 2.96% of the population are non-UK nationals. In terms of population distribution, the population is heavily concentrated in Blackpool's inner area, which is intensely compact.

Social

2.3 Whilst the Borough has benefitted from regeneration projects it still suffers from high levels of deprivation. The 2010 Indices of Deprivation ranked Blackpool as the 6th most deprived local authority area in the country after previously being ranked at 12th (2007). It also shows that 35 out of the 94 Lower Super Output Areas (one third of the population) are in the 10 most deprived areas nationally.

2.4 Blackpool has the lowest life expectancy for males (74) and a below average life expectancy for females (80). Blackpool still has one of the highest teenage pregnancy rates (42.9 per 1000 population) although it has decreased considerably from 59 per 1000 population in 2011/12⁴.

2.5 Blackpool faces strong challenges to improve social wellbeing for its residents such as providing good quality affordable homes that encourage healthy and sustainable living; improving educational skills and providing business and employment opportunities.

⁴ Blackpool Health Profile 2014

Authority Monitoring Report 2014

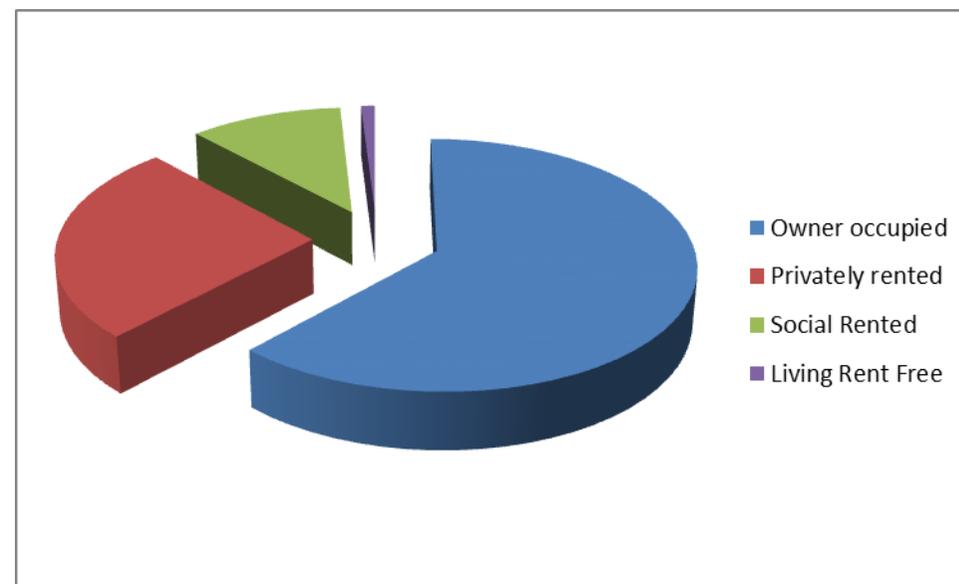

Housing

2.6 Of the 64,367 households in the Borough, 38% are single person households. The proportions of household composition are comparable to those on county, regional and national scale. However, the proportion of one person households is greater in Blackpool, compared to 32% in the North West and 30% in England⁵.

2.7 62% of Blackpool's accommodation is owner occupied, compared with 70% on the Fylde Coast and 63% in England. There is a higher percentage of people living in privately rented accommodation (26%) compared with the Fylde Coast (20%) and England (17%). 11% live in socially rented accommodation compared with 9% on the Fylde Coast and 18% in England. 1% are living rent free.

2.8 Semi-detached and terraced housing predominate in Blackpool, comprising over half (66.5%) of the total housing stock. Purpose built and converted flats make up a further 24.8%⁵

⁵ Census Data 2011

Authority Monitoring Report 2014

Education

2.9 Blackpool has a total of 19,027 pupils enrolled. In Blackpool 52.6% of pupils achieved 5 Grade A*-C or equivalent at GCSE in the last academic year (2013/14). In the period January – December 2013, there were 44% of the working age population holding an NVQ level 3 or equivalent (A-Level), and 22% of the working age population with an NVQ level 4 and higher or equivalent (Degree, HND, Higher Degree). This suggests that less than half of all pupils who achieve 5 grade A*-C GCSE's go on to higher education later in life, with the biggest drop post A-Level.

Employment

2.10 The public sector, retail and accommodation/food and drink are the key sources for employment in Blackpool with manufacturing also playing an important role.

2.11 In Blackpool, 87,700 people (61.7% of the population) are working age and 63,400 of these (75.6%) are economically active. This figure has increased from 70.8% in 2012/3 and is higher than the North West (75%) but lower than the England Average (77.4%).

2.12 9.8 % of the economically active population (which equates to 6,200 people) are unemployed, which is higher than the North West figure of 7.9% and the national figure of 7.2%.

2.13 39.9% of all employees in Blackpool are in part time employment, compared to 32.1% in the North West and 32.3% in England⁶

Tourism

2.14 Until recently, the number of visitors to the resort had been declining. However, recent visitor economy data has shown an upturn in visitor numbers for the last two years, with 2013/14 attracting 4.2 million staying visitors.

2.15 19% of hotel and guest house accommodation is accredited, which is an increase of 5.5% from 2009/10. There has also been an increase in the number of 3,4 and 5 star accommodation, with the amount of 5 star accommodation increasing from 3 to 6⁷.

Planning Applications

2.16 In the monitoring year 2013/14, there were 626 applications received and 621 decisions made. Of these, 462 were granted, 46 were refused and 69 were withdrawn. 40 of the 621 applications decided were for 'Prior Approval' of these, 10 were granted, 2 were refused, and in 28 cases it was deemed that prior approval was not required.

⁷ TNS Omnibus Surveys commissioned by Blackpool Council 2013/14

Authority Monitoring Report 2014

2.17 There were 21 applications made for new build housing in 2013/14, 12 of these were for small scale housing developments (defined as a development of less than 10 dwellings). 3 of the 9 large scale housing developments granted permission in 2013/14 are for Council led housing regeneration schemes at Queens Park and Foxhall Village.

2.18 There were 24 planning appeals lodged in 2013/14, 3 were allowed by the inspectorate, 20 were dismissed and 1 was withdrawn.

BLACKPOOL LOCAL PLAN (Adopted 2006)

3.0 OBJECTIVES

3.1 The 15 objectives have been derived from the aims of the Council and its partners and from national policy as set out in a variety of documents. In particular they draw upon the following sources:

- The current Blackpool Local Plan 2001-2016
- The Local Transport Plan
- The Sustainability Appraisal Framework used for the appraisal of the current and emerging Local Plan policies

3.2 They have been kept to a manageable number to enable a concise and focussed monitoring approach; grouped under the four overarching aims for sustainable development, as set out in Planning Policy Statement 1 (in place until recently).

A) THE MAINTENANCE OF HIGH AND STABLE LEVELS OF ECONOMIC GROWTH AND EMPLOYMENT

OBJECTIVE EC1	To identify and promote opportunities for major tourism development as catalysts for Blackpool's regeneration
OBJECTIVE EC2	To re-establish a stable and successful holiday accommodation sector
OBJECTIVE EC3	To re-establish the town centre as the first choice destination for Fylde Coast residents by improving the range and quality of shopping and supporting facilities
OBJECTIVE EC4	To provide sufficient opportunities to meet the development needs of local firms and attract new investment
OBJ. EC5	To promote Blackpool town centre as a location for office development

B) EFFECTIVE PROTECTION OF THE ENVIRONMENT

OBJECTIVE E6	To protect, enhance and create areas of green space
OBJECTIVE E7	To maintain and enhance landscape quality and nature conservation value of Blackpool's open land natural environment
OBJECTIVE E8	To protect and enhance the appearance and setting of historic and attractive buildings and areas

C) THE PRUDENT USE OF NATURAL RESOURCES

OBJECTIVE NR9	To promote sustainable development locations and improved accessibility by integrating development, quality transport and infrastructure and travel choice
OBJECTIVE	To promote development that does not harm and makes efficient

Authority Monitoring Report 2014

NR10	use of natural resources
OBJECTIVE NR11	Maximise energy efficiency of buildings through creative layout, design and use of renewable energy sources

D) SOCIAL PROGRESS WHICH RECOGNISES THE NEEDS OF EVERYONE

OBJECTIVE S12	To ensure that sufficient land is made available to meet requirements for new housing
OBJECTIVE S13	To provide a balanced mix of housing in appropriate locations to meet the community's needs and support the town's regeneration
OBJECTIVE S14	To secure a high quality, attractive and safe built environment and public realm
OBJECTIVE S15	To promote social inclusion and ensure that the range and Distribution of local facilities encourages the development of balanced and healthy communities across Blackpool

4.0 EMERGING BLACKPOOL LOCAL PLAN PART 1: CORE STRATEGY 2012 - 2027

OBJECTIVES

4.1 The spatial vision of the Core Strategy is underpinned by four goals. Each goal is supported by a number of strategic objectives. The aim is to achieve these objectives through the implementation of Core Strategy policies.

4.2 There are 21 objectives, derived from Council Strategy, National Policy and the Sustainability Appraisal. They have been kept to a manageable number to enable a concise, focussed monitoring approach.

Goal 1: Sustainable Regeneration, Diversification and Growth	
Objective 1	Ensure a balanced approach to regeneration and growth with sustainable development which meets the needs of Blackpool's people now, and into the future
Objective 2	Support new housing provision to deliver a choice of quality homes across the Borough for new and existing residents
Objective 3	Strengthen the local economy through sustainable development in new enterprise, entrepreneurship and business start-ups,

Goal 1: Sustainable Regeneration, Diversification and Growth	
	creating better paid jobs and a wider choice of employment
Objective 4	Enable easier and sustainable journeys within Blackpool and the Fylde Coast by integrating transport systems and promoting sustainable modes of travel
Objective 5	Create well designed places for people to enjoy with high quality buildings, streets and spaces, whilst conserving and enhancing Blackpool's rich heritage and natural environment
Objective 6	Address climate change issues by managing water flood risk, protecting water quality, reducing energy use and encouraging renewable energy sources
Objective 7	Ensure there is sufficient and appropriate infrastructure to meet future needs

Authority Monitoring Report 2014

Goal 2: Strengthen community wellbeing to create sustainable communities and reduce inequality in Blackpool's most deprived areas

Objective 8	Develop sustainable and safer neighbourhoods that are socially cohesive and well connected to jobs, shops, local community services including health and education, culture and leisure facilities
Objective 9	Achieve housing densities that respect the local surroundings whilst making efficient use of land, ensure new homes are of a high quality design and require a mix of house types, sizes and tenures suitable to the location to rebalance the housing market
Objective 10	Meet residents needs for affordable housing, to provide people with a choice of homes they can afford in places they want to live
Objective 11	Improve the health and wellbeing of Blackpool's residents and reduce health inequalities by maintaining good access to health care and encouraging healthy active lifestyles, including access to public open spaces, the coast, countryside, sport and recreation facilities
Objective 12	Increase access to quality education facilities to improve educational achievement, skills and aspirations

Objective 13

Guide the provision of traveller sites in appropriate locations where there is an identified need

Goal 3: Regeneration of the town centre, resort core and inner areas to address economic, social and physical decline

Objective 14	Sustain a high quality, year-round visitor offer by growing and promoting our tourism, arts, heritage and cultural offer including new high quality attractions, accommodation and conferencing facilities and an exciting programme of national events and festivals
Objective 15	Secure investment in retail, leisure and other town centre uses in Blackpool Town Centre to strengthen the offer with high quality shopping, restaurants, leisure, entertainment and offices, making the town centre the first choice shopping destination for Fylde Coast residents and an attractive place to visit and do business
Objective 16	Establish balanced and sustainable communities in the inner areas with sustainable housing regeneration and new landmark residential development which improves housing quality and choice

Authority Monitoring Report 2014

Goal 4: Supporting growth and enhancement in South Blackpool to meet future housing and employment needs for Blackpool and the Fylde Coast	
Objective 17	Support economic growth along the Blackpool Airport corridor and on lands close to Junction 4 of the M55
Objective 18	Link the delivery of new housing development in South Blackpool with resort regeneration, for example through New Homes Bonus and commuted sum payments to create more sustainable housing markets
Objective 19	Provide a complementary housing offer between new homes in South Blackpool and those delivered through regeneration in the inner areas to avoid competition within Blackpool's housing market
Objective 20	Balance the requirement for new development in South Blackpool whilst recognising the distinctive character of remaining lands at Marton Moss
Objective 21	Secure the necessary infrastructure to enable new sustainable development which integrates with its surroundings, providing choice and convenient access to employment, services and community facilities

6.0 DUTY TO CO-OPERATE

The 'Duty to Co-Operate' is a legal requirement of the plan preparation process. It was introduced by the Localism Act (2011) and requires local planning authorities and other bodies to co-operate with each other to address strategic issues relevant to their areas. Further advice is given in the National Planning Policy Framework (March 2012), which sets out the strategic issues where co-operation might be appropriate and gives guidance on planning strategically across local boundaries. In submitting a Local Plan for Examination, evidence will be required to demonstrate that the duty to co-operate has been undertaken appropriately. Regulations state that Council's need to report how the Duty to Co-Operate is being taken forward on an ongoing basis through the AMR.

In 2013/14 Blackpool Council has continued to engage with neighbouring authorities of Fylde and Wyre Borough Council's, and Lancashire County Council on key strategic issues that affect the area and wider sub-region, building on collaborative work which has been ongoing for many years between the four authorities. This work has focused on aligning the emerging Local Plans being prepared by each authority with the policy framework for the area.

The same can be said for engagement with other organisations, particularly relating to local and regional infrastructure, including the Environment Agency, the Highways Agency, English Heritage and United Utilities

A large number of public and private bodies and local residents and businesses have also been regularly engaged and consulted throughout the plan-making process as set out in the Council's Statement of Consultation 2014.

Key activities undertaken in 2013/14 include:

- The Council agreed (August 2013) a Memorandum of Understanding (MOU) with Fylde and Wyre Borough Council's and Lancashire County Council. This formalises the ongoing dialogue and co-operation that currently exists between the four authorities, identifies cross-boundary issues and sets out governance arrangements and protocols.
- Preparation of the Blackpool Local Plan Part 1: Core Strategy Proposed Submission document for consultation to include appropriate consultation bodies, including neighbouring authorities. (Consultation undertaken over Summer 2014)
- Meetings held at various officer and member level with neighbouring authorities focused on housing, employment and transport related matters, including providing an update on emerging evidence base documents and discussing the delivery of key sites.
- Following the completion of the Fylde Coast Retail Study in 2011, the Fylde Coast authorities have continued to work together on producing other joint evidence base studies, including a new Fylde Coast Strategic Housing Market Assessment commissioned in 2013 and work commenced on an updated Gypsy, Traveller and Travelling Showpeople Accommodation Assessment.
- Ongoing engagement with the Fylde Peninsular Water Management Group, Fylde Coast Strategic Transport Group as well as utility, education, health and transport providers to inform continued work on

Authority Monitoring Report 2014

developing policy and evidence base documents including the Infrastructure Delivery Plan.

- Dialogue with the Lancashire Enterprise Partnership to inform sub-regional strategy development including the Lancashire Growth Plan and Strategic Economic Plan.

APPENDIX B – OVERVIEW OF HOUSING AND EMPLOYMENT

HOUSING

Overview

Blackpool has a unique and extreme set of housing challenges related to its holiday accommodation decline, limited range of affordable housing and attractiveness as a destination for low income vulnerable households from across the country. This has led to an extremely unbalanced housing supply within the Borough. Whilst there is a mix of housing across the town as a whole, housing choice in many inner area neighbourhoods is very limited, with an unsustainable concentration of low income households and predominance of rented properties. Elsewhere in the Borough, due to rising house prices, affordability is a serious issue for many households who aspire to a better standard of living.

In the last decade there have been no substantial new large housing sites, with much of Blackpool's new housing comprising either conversions or flat development. As a result, there is restricted availability of good quality family housing. Therefore more economically active households are increasingly reliant on wider attractive housing choices elsewhere across the Fylde Coast.

A key aim of the emerging Core Strategy is to address limitations on choice and provide a wider mix of new housing, which people can afford, in areas where people would choose to live, creating more balanced, sustainable and healthy communities. This approach reflects the national priority for sustainable development and the Council's objective to deliver a choice of quality homes

across the Borough for new and existing residents, in line with the Core Strategy dual focus on regeneration and supporting growth. The Council is currently delivering two new housing projects at Queens Park and Rigby Road in order to provide new family housing within Blackpool's more deprived neighbourhoods to provide a choice of quality homes that will appeal to different households to promote more balanced, sustainable and healthy communities.

Blackpool's Future Housing Provision

The National Planning Policy Framework (NPPF) sets out the Government's priorities for planning for housing in England. Following the revocation of the North West Regional Spatial Strategy (NWRSS) in May 2013, the NPPF requires local authorities to be responsible for determining their own objectively assessed housing targets based on evidence of local need. The Blackpool Core Strategy Proposed Submission (June 2014) sets out the proposed housing target of 4,200 dwellings between 2012 and 2027, which equates to an average of 280 dwellings per annum. Further detail on this can be found in the Housing Requirement Technical Paper (2014)

Key evidence documents informing Blackpool's future housing target include:

- Housing Requirement Technical Paper (2014)
- Fylde Coast Strategic Housing Market Assessment (SHMA) December 2013 (Published February 2014)
- Toward an Objective Assessment of Housing Need in Blackpool - Analysis of Economic and Housing Forecasts (2014)

Housing Monitoring

The Housing Monitoring Report (HMR) is a technical monitoring report which is prepared annually to provide information on the latest housing position in Blackpool Borough. It reports on housing completions and new housing approvals over a 12 month period, including affordable housing. Publishing the HMR allows the local authority to monitor progress in the delivery of new housing against its housing target for the plan period. In particular, it shows how many dwellings have been completed over the plan period and the number of dwellings with planning permission at the end of the monitoring year.

The HMR forms part of the evidence base for the emerging Blackpool Core Strategy and provides housing data for the Annual Monitoring Report (AMR). The 2013-14 HMR, which has informed this year's AMR, can be viewed on the Council's website at: www.blackpool.gov.uk/evidencebase

EMPLOYMENT

Economy Overview

Blackpool's economy is underpinned by tourism and the service sector. There is also a high level of public sector employment, with Blackpool accommodating a number of large Government offices. Whilst there is no tradition of heavy industry, the town's small manufacturing sector includes local specialism in food and drink, and plastics.

Jobs in tourism and the service sector are generally low skill and low wage leading to lower productivity and a seasonal economy. In addition, three decades of resort decline has led to an underperforming economy and high levels of deprivation, and the town centre is underperforming as a sub-regional centre. Whilst the visitor economy remains a key growth sector, there is a need to provide sustainable job opportunities in other sectors to diversify the local economy and improve economic prosperity.

In 2012 there were 3,165 VAT/PAYE registered businesses in Blackpool, which compares to 3,250 in 2007 (Source: DTI). This decline was offset by modest growth in Wyre and Fylde, meaning Blackpool's business base became a smaller part of the sub-regional economy over this period. Blackpool also has a lower business density compared to the Fylde Coast, with fewer businesses per head of the working age population.

The majority of Blackpool businesses are in retail (15.6%) and accommodation / food service (14.1%) sectors. There is also a higher representation of health and arts, entertainment, recreation and other services sectors compared to elsewhere.

Employment Land

A survey of remaining land available on existing employment sites and take-up of land since 2010 was undertaken in summer 2012 as part of the 2013 Blackpool Employment Land Study and is summarised below. The total amount of available land is set out below.

Available Employment Land at July 2012

Site Name	Available Land (ha)
Blackpool Business Park	6.9
Squires Gate Industrial Estate	1.7
Blackpool North Technology Park	3.7
Moor Park	0.4
Vicarage Lane Estate	0.9
Clifton Road Estate	3.9
Mowbray Drive	0.3
Preston New Road	3.8*
Total	21.6 (17.8 when discounting NS&I)

*This land has been subject of pre-application discussions for non-employment uses

Blackpool's focus on future employment development is twofold. There are 13 main industrial/business areas which are important to continue to safeguard for employment use, with opportunities to develop remaining land available and to redevelop existing sites for new employment uses. Growing the commercial and business sector in Blackpool Town Centre is also important and work is ongoing to progress development and investment, building on infrastructure, accessibility and land availability opportunities.

Blackpool is not an economy in isolation and the Fylde Coast Sub-Region provides an important resource for Blackpool, especially for higher value economic activity with major employers in aerospace, chemical, nuclear processing and port industries. The sub-region functions as an integrated employment market and travel to work area with strong links in terms of travel to work patterns, employment and shared infrastructure.

Blackpool, Fylde and Wyre Councils have each undertaken assessments of their existing portfolio of business and industrial sites to inform future requirements for employment land. The three Fylde Coast authorities are also co-operating on future employment provision for the sub-region.
