Residential bin hubs

Last Modified March 11, 2026

A simpler, cleaner way to recycle

We're making recycling easier for residents currently on a red sack collection with 7 new bin hubs in selected areas, which contain four bins to enable residents a new way to separate waste.

This is part of the [government's new simpler recycling legislation](#).

These new bin hubs will:

- **Replace red sacks** and allow your household to recycle
- Be located close to your property
- Provide clear signage on each bin to inform you what goes where
- There will be no specific collection date; these hubs allow you to dispose of household waste at any time
- An indoor food caddy will be supplied with liners for easy food waste disposal
- These bins are for **residents only – not for businesses**
