Gender pay gap report 2019

Last Modified March 12, 2020

1.0 Introduction

From April 2017, all organisations that employ over 250 employees are required to report annually their gender pay gap. The gender pay gap is defined as the differences in the average earnings of men and women over a standard period of time, regardless of their role or seniority.

This is therefore the second year gender pay gap data has been reported.

A positive pay gap indicates that men are paid on average a greater hourly rate; a negative pay gap indicates that women are on average a greater hourly rate.

2.0 Context

Blackpool Council is a unitary authority, which provides around 150 services to 142,000 Blackpool residents.

All Blackpool Council employees are remunerated according to set pay scales; posts are regularly reviewed and agreed by employee representatives through a formal job evaluation system. Our workforce is currently 2803 employees, in the scope of the gender pay gap of whom two thirds are female (65.9 %).

Blackpool Council is committed to eliminating discrimination and encouraging equality and diversity in our workforce.

This approach is endorsed in our council plan which includes an assurance of equality and fairness in respect of gender.

Our equality objectives aim to get more people to tell us they experience fair treatment by council services; to make our workforce representative of our communities, with more people from diverse backgrounds involved in decision-making at every level; that equality and diversity is embedded in staff culture; and that we celebrate growing diversity and increase respect and understanding for all.

What are we required to report?
