28th April 2010

Sharon Davis
Blackpool County Council

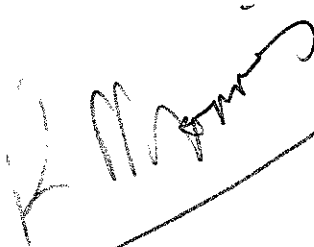

With objection to Section 2.5 Article 9.

With regards to the above proposal I think it is necessary for safety for a driver to require some assistance at times e.g. when you are training a new horse or a horse that is a cab horse and has not been used for a while.

A new driver needs to gain experience and learn the ranks. Even when you have trained a new horse all year, they need to get use to fire works and the illuminations.

Yours sincerely

Roy Morris

A handwritten signature in black ink, appearing to read 'Roy Morris', is written over a long, sweeping horizontal line that extends across the width of the signature area.

Sharon Davis
Blackpool County Council

With objection to Section 2.5 Article 9.

With regards to the above proposal I think it is necessary for safety:-

At times a driver needs to be accompanied e.g. When training a new horse or when a cab horse has not been used for a while. Even when you have trained a horse all summer you still require assistance when there are firework displays and during the Illuminations.

I think the council should provide all new owners with starter pack, stating all the rules and regulations. Otherwise they could result in attending court through no fault of their own, like I did.

I think the council should have someone with a background of equine experience of working driving horses to work with them.

I think every carriage should carry fire extinguishers as advised by Frank Mickleworth the Fire Safety Officer at St Annes Road Fire Station, Blackpool because we carry batteries and they could ignite. Also, all carriages should carry No Smoking signs.

Yours Sincerely

J. Brown.
