

About Enveco NW Environmental Services

Last Modified date

The company

Enveco North West environmental services is a Blackpool council company created in 2019.

We specialise in waste management including kerbside waste collection for Blackpool residents.

We deliver a service with greater flexibility and levels of innovation, utilising the skills and expertise of our board of directors and staff.

Our vision is to give a high quality, responsive and reliable environmental service to our communities.

Our waste minimisation team are dedicated to raising awareness of environmental issues and encouraging positive environmental behaviours.

We are creating opportunities for residents to have access to a better recycling service.
