# Climate action partnership

Last Modified November 23, 2021

We are setting up a climate action partnership for Blackpool, involving:

- Councillors
- Residents
- Young citizens
- Climate experts
- Businesses
- Climate assembly representatives
- Other relevant parties

The climate action partnership will consider strategies and actions being developed by the council and partner organisations.

They will develop a plan and put actions in place to achieve the target of net zero carbon emissions by 2030.

They will also recommend how to make the most of the local benefits of these actions in other areas such as:

- Employment
- Health
- Agriculture
- Transport and
- The economy
