## 1. INTRODUCTION

1.1 The Housing Monitoring Report (HMR) is a technical monitoring report which is prepared annually to provide information on the latest housing position in Blackpool Borough. It reports on housing completions and new housing approvals over a 12 month period, including affordable housing. The 2015 HMR reports on the period from 1<sup>st</sup> April 2014 to 31<sup>st</sup> March 2015, drawing on relevant data from a number of sources.

1.2 Publishing the HMR allows the local authority to monitor progress in the delivery of new housing against its housing target for the plan period. In particular, it shows how many dwellings have been completed within the plan period and the number of dwellings with planning permission at 31<sup>st</sup> March 2015.

1.3 Where minor adjustments have been made to past figures recorded in previous HMRs, to reflect updated information, these are explained accordingly.

1.4 The HMR forms part of the evidence base for the emerging Blackpool Core Strategy and provides housing data for the Annual Monitoring Report.

1.5 Previous HMRs published by Blackpool Council have included a housing trajectory which illustrates the expected rate of housing delivery in the Borough for the plan period in the emerging Core Strategy to 2027. This information is reported in the Council's 2013 Strategic Housing Land Availability Assessment (SHLAA) update as well as the Housing Technical Paper (both published June 2014).

1.6 A glossary of technical terms used in the HMR can be found in Appendix A.

1.7 This report reflects the situation in Blackpool at 31<sup>st</sup> March 2015 and contains the following information:

### HOUSING COMPLETIONS

a. Number of Completions 2003/04 – 2014/15 (*Table 1*)

c. Completions by Source i.e. Allocated/Identified/Windfall sites (*Table 2*)

b. Completions on Previously Developed Land and Greenfield Sites (*Table 3*)

d. Completions by Site Size (*Table 4*)

e. Completions by Dwelling Type and Size (*Tables 5 & 6*)

f. Completions by Tenure i.e. Market & Affordable Housing (*Table 7*)

g. Completions by Density (*Table 8*)

h. Other Sources of Additional Dwellings & Revised Annual Net Completions (*Table 9*)

i. Summary of Housing Delivery against Local Plan requirement (*Table 10*)

### HOUSING COMMITMENTS

a. New Dwellings Permitted in 2014-15 (*Table 11*)

b. Extant Planning Permissions (*Table 12*)

c. Extant Planning Permissions by Dwelling Type (*Table 13*)

d. Extant Planning Permissions for Affordable Housing (*Table 14*)

d. Land committed for Residential Development (*Table 15*)

e. Applications approved subject to a Signed S106 Agreement (*Table 16*)

---

## 2. POLICY CONTEXT

### National Planning Policy

2.1 One of the key roles of the planning system is to ensure that new homes are provided in appropriate locations through either new build development or the conversion of existing buildings. Local planning authorities are required to plan for and enable a continuous supply of housing to meet the identified housing needs of their local communities.

2.2 The National Planning Policy Framework (NPPF) (March 2012)<sup>1</sup> requires local authorities to identify and update annually a supply of specific deliverable sites sufficient to provide five years of housing against their housing requirements with an additional buffer of 5% to ensure choice and competition in the market. Where there has been a record of persistent under delivery, this buffer should be increased to 20%. Local authorities are also required to identify a supply of specific, developable sites for years 6-10, and where possible, years 11-15.

### Local Planning Policy

2.3 The Blackpool Core Strategy Proposed Submission sets out a new housing target of 280 dwellings per annum, which equates to 4,200 additional dwellings between 2012 and 2027. A phased approach means that during the first five years of the plan period (2012-2017) the housing target is 250 dwellings per annum. Evidence to support this figure, as well as phasing the requirement, is set out in the Housing Technical Paper (June 2014). This also summarises the housing trajectory and five year land supply taken from the 2013 SHLAA Update.

2.4 The Core Strategy Examination in Public took place in May 2015 and the Core Strategy is expected to be adopted early 2016

2.5 Once the Core Strategy is adopted, a Site Allocations and Development Management document will be prepared to identify how this housing requirement will be met through allocating appropriate land for development.

---

<sup>1</sup> Replaces *Planning Policy Statement 3 (PPS3): Housing*, which is now withdrawn

### 3. HOUSING COMPLETIONS

#### a. Number of Completions 2003/04 – 2014/15

3.1 For the monitoring period 1<sup>st</sup> April 2014 – 31<sup>st</sup> March 2015 a gross total of **293** dwellings were completed. 40 dwellings were lost through conversions therefore the net total of new dwellings was **253**.

3.2 When collated with historic data, **3,497** dwellings (gross) have been completed between 1<sup>st</sup> April 2003 and 31<sup>st</sup> March 2015 from new build (2,008) and permitted conversions (1,489). This gross figure does not take into account dwellings which have been lost through demolition or conversion.

3.3 **2,625** dwellings (net) have been completed between 1<sup>st</sup> April 2003 and 31<sup>st</sup> March 2015 from new build (1,565) and permitted conversions (1,060), representing an average of 239 dwellings per year.

3.4 In terms of new build development, for the monitoring period 2014/15, there were **166** gross completions (**166** net). A schedule of new build completions for 2014/15 can be found in Appendix B. Since 2003, a gross total of **2,008** new build dwellings have been completed, with a net total of **1,565**.

3.5 In terms of permitted conversions, during 2014/15 there were **127** gross completions equating to **87** net. The net figure excludes existing dwellings lost through conversions<sup>2</sup>. A schedule of completions through permitted conversions for 2014/15 can be found in Appendix C. Since 2003, a gross total of **1,489** permitted conversions have been completed, while the net total was **1,060**. There has been some variation in the annual rate of conversions since 2003, although the net completion figure in 2014/15 of 87 is broadly in line with the average figure of 88 recorded over this twelve year period.

<sup>2</sup> For example self contained owner accommodation or two dwellings converted into one.

Table 1: Annual gross & net completions 1<sup>st</sup> April 2003 - 31<sup>st</sup> March 2015

Year	New Build			Conversions (Permitted)			Total	
	Gross	Losses	Net	Gross	Losses	Net	Gross	Net
2003/04	175	63	112	163	41	122	<b>338</b>	<b>234</b>
2004/05	315	45	270	96	53	43	<b>411</b>	<b>313</b>
2005/06	314	24	290	138	29	109	<b>452</b>	<b>399</b>
2006/07	311	52	259	136	57	79	<b>447</b>	<b>338</b>
2007/08	186	5	181	102	21	81	<b>288</b>	<b>262</b>
2008/09	85	4	81	137	28	109	<b>222</b>	<b>190</b>
2009/10	59	2	57	93	27	66	<b>152</b>	<b>123</b>
2010/11	240	66	174	55	7	48	<b>295</b>	<b>222</b>
2011/12	79	3	76	188	46	142	<b>267</b>	<b>218</b>
2012/13	56	3	53	131	56	75	<b>187</b>	<b>128</b>
2013/14	22	176 <sup>3</sup>	-154	123	24	99	<b>145</b>	<b>-55</b>
2014/15	166	0	166	127	40	87	<b>293</b>	<b>253</b>
<b>Total</b>	<b>2008</b>	<b>443</b>	<b>1565</b>	<b>1489</b>	<b>429</b>	<b>1060</b>	<b>3497</b>	<b>2625</b>

<sup>3</sup> The 'losses' figure recorded here for 2013/14 relates to the demolition of 176 flats at Queens Park (Phase 1) in order to make way for 92 new dwellings (due for completion in 2014/15) to improve Blackpool's local authority housing stock.

## b. Completions by Source

3.6 Housing may come forward on land allocated in the Local Plan; on sites identified through the SHLAA process; or on windfall sites that have not been identified as available through the local plan process (including conversions). These are defined in Appendix A.

3.7 The current Blackpool Local Plan 2001-16 allocates 5.2 hectares of land for residential development (potential capacity of 286 dwellings). This small figure reflects Blackpool's tightly drawn boundary and shortage of development land. 5 hectares have been developed, leaving 0.2 hectares remaining. With 3 proposed strategic housing land allocations in the Core Strategy (at Moss House Road, Whyndyke Farm and Rigby Road), additional allocated sites will come forward through the Site Allocations and Development Management document.

3.8 Sites have been identified through the SHLAA process since the 2008/09 monitoring year when the SHLAA was first published. Due to Blackpool's geographical constraints set out above and intensely developed urban area, the SHLAA includes small sites within the urban area with no minimum site threshold.

3.9 In 2014/15, 13 completions (net) were on a site allocated in the Local Plan (Ryscar Way) and 23 were on windfall sites. There were 130 net completions on sites identified through the SHLAA process. Permitted conversions have been a constant source of windfall supply, accounting for 1,060 (40%) net completions since 2003. This equates to an average of 88 (rounded) per annum, making a significant contribution to Blackpool's housing supply during the plan period. These conversions are largely due to the change of use of holiday accommodation into permanent residential use within the inner area.

3.10 Monitoring completions on windfall sites is important to demonstrate that such sites have consistently become available, and to support the justification of including a windfall allowance in the future housing supply. Both the 2013 SHLAA Update (2014) and Housing Technical Paper (2014) contain full details of this

justification and determine the contribution that windfall development is likely to make for the remainder of the plan period.

**Table 2: Annual net completions by source**

Year	Allocated	Identified in the SHLAA	Windfall		Total
			New Build	Conversion (permitted)	
2003/04	20	N/A	92	122	<b>234</b>
2004/05	52	N/A	218	43	<b>313</b>
2005/06	143	N/A	147	109	<b>399</b>
2006/07	79	N/A	180	79	<b>338</b>
2007/08	67	N/A	114	81	<b>262</b>
2008/09	31	0	50	109	<b>190</b>
2009/10	3	0	54	66	<b>123</b>
2010/11	2	0	172	48	<b>222</b>
2011/12	8	0	68	142	<b>218</b>
2012/13	6	0	47	75	<b>128</b>
2013/14	11	-176	11	99	<b>-55</b>
2014/15	13	130	23	87	<b>253</b>
<b>Total</b>	<b>435</b>	<b>-46</b>	<b>1,176</b>	<b>1,060</b>	<b>2,625</b>

## c. Completions on Previously Developed Land and Greenfield Sites

3.11 The NPPF encourages the effective use of land by reusing land that has been previously developed (brownfield land), provided that it is not of high environmental value. In June 2010 the Government removed private residential gardens from the definition of previously development land (PDL), and this has been reflected in the monitoring figures.

3.12 In 2014/15, 94% of net housing completions were on PDL, largely due to the amount of conversions that occurred. In terms of net new build completions, 91% were on PDL, which is higher than an average of 87% since 2003.

**Table 3: Annual net housing completions on PDL & Greenfield sites (GF)**

Year	New Build		Conversions (Permitted)	Total	
	GF	PDL	PDL	GF	PDL
2003/04	21	91 (81%)	122	21	213 (91%)
2004/05	17	253 (94%)	43	17	296 (95%)
2005/06	48	242 (83%)	109	48	351 (88%)
2006/07	31	228 (88%)	79	31	307 (91%)
2007/08	19	162 (90%)	81	19	243 (93%)
2008/09	31	50 (62%)	109	31	159 (84%)
2009/10	3	54 (95%)	66	3	120 (98%)
2010/11	10	164 (94%)	48	10	212 (95%)
2011/12	8	68 (89%)	142	8	210 (95%)
2012/13	12	41 (77%)	75	12	116 (91%)
2013/14 <sup>4</sup>	12	10 (45%)	99	12	109 (90%)
2014/15	15	151 (91%)	87	15	238 (94%)
<b>Total</b>	<b>227</b>	<b>1,514 (87%)</b>	<b>1,060</b>	<b>227</b>	<b>2,574 (91%)</b>

#### d. Completions by Site Size

3.13 The majority of new build completions since 2003 have been on small sites below 0.4 hectares (52%), which is a reflection that Blackpool Borough is intensely urban and compact, largely built up to its boundaries. During 2014/15, there were 21 (net) new build completions on sites below 0.4 hectares, 0 on sites between 0.4 to 1 hectare, and 145 on sites over 1 hectare in size.

**Table 4: Annual new build net completions by site size**

Year	Sites Below 0.4ha		Sites 0.4ha to 1ha		Sites Over 1ha	
	PDL	GF	PDL	GF	PDL	GF
2003/04	86	1	-28	4	33	16
2004/05	154	4	75	0	24	13
2005/06	115	5	32	0	95	43
2006/07	78	6	117	0	33	25
2007/08	94	9	36	0	32	10
2008/09	34	0	16	0	0	31
2009/10	53	0	0	1	1	2
2010/11	182	2	-18	0	0	8
2011/12	36	0	32	0	0	8
2012/13	14	6	27	0	0	6
2013/14 <sup>5</sup>	10	1	0	0	0	11
2014/15	21	0	0	0	130	15
<b>Total</b>	<b>877</b>	<b>34</b>	<b>289</b>	<b>5</b>	<b>348</b>	<b>188</b>
<b>Combined Total</b>	<b>911 (52%)</b>		<b>294 (17%)</b>		<b>536 (31%)</b>	

<sup>4</sup> Net figures recorded for New Build PDL (10) and Total PDL (109) exclude the 176 demolitions at Queens Park.

<sup>5</sup> Net figures recorded for PDL sites over 1ha exclude the 176 demolitions at Queens Park.

## e. Completions by Dwelling Type and Size

### Dwelling Type

3.14 In 2014/15 the majority of gross new build completions were terraced properties (82). Since 2003 the largest percentage of gross new build completions has been flats, accounting for 48% of all new build completions, compared to detached (13%), semi-detached (16%) and terraced (23%) properties.

**Table 5: Gross annual new build completions by dwelling type**

Year	Detached	Semi Detached	Terraced	Flats	Total
2003/04	46	6	26	97	<b>175</b>
2004/05	53	76	70	116	<b>315</b>
2005/06	48	36	43	187	<b>314</b>
2006/07	31	30	96	154	<b>311</b>
2007/08	18	36	15	117	<b>186</b>
2008/09	2	8	44	31	<b>85</b>
2009/10	9	6	12	32	<b>59</b>
2010/11	10	44	38	148	<b>240</b>
2011/12	9	33	24	13	<b>79</b>
2012/13	10	23	15	8	<b>56</b>
2013/14	8	4	5	5	<b>22</b>
2014/15	10	21	82	53	<b>166</b>
<b>Total</b>	<b>254</b>	<b>323</b>	<b>470</b>	<b>961</b>	<b>2,008</b>
<b>% Total</b>	<b>13%</b>	<b>16%</b>	<b>23%</b>	<b>48%</b>	<b>100%</b>

### Dwelling Size

3.15 Information on completions by dwelling size (no. of bedrooms) is available from 1<sup>st</sup> April 2006. Since then, the majority of new build completions have been 2 and 3 bed properties (48% & 36% respectively), while the majority of conversions have been 1 and 2 bed properties (27% & 44% respectively).

**Table 6: Gross annual completions by dwelling size**

	Year	1 bed	2 bed	3 bed	4 bed	Total
<b>New Build</b>	2006/07	26	172	96	17	<b>311</b>
	2007/08	17	86	77	6	<b>186</b>
	2008/09	0	40	44	1	<b>85</b>
	2009/10	0	46	6	7	<b>59</b>
	2010/11	12	146	53	29	<b>240</b>
	2011/12	0	21	48	10	<b>79</b>
	2012/13	1	19	28	8	<b>56</b>
	2013/14	0	7	10	5	<b>22</b>
	2014/15	42	44	68	12	<b>166</b>
	<b>Total</b>		<b>98 (8%)</b>	<b>581 (48%)</b>	<b>430 (36%)</b>	<b>95 (8%)</b>
<b>Conversion</b>	2006/07	71	32	24	9	<b>136</b>
	2007/08	48	26	8	20	<b>102</b>
	2008/09	54	58	14	11	<b>137</b>

	2010/11	10	39	6	0	<b>55</b>
	2011/12	42	86	20	40	<b>188</b>
	2012/13	21	63	25	22	<b>131</b>
	2013/14	19	69	17	18	<b>123</b>
	2014/15	9	49	33	36	<b>127</b>
	<b>Total</b>		<b>300 (27%)</b>	<b>479 (44%)</b>	<b>152 (14%)</b>	<b>161 (15%)</b>

## f. Completions by Tenure i.e. Market & Affordable Housing

3.16 In 2014/15 there were 55 new build (gross) market housing completions, 66 Local Authority completions and 45 Affordable Housing completions. Market and affordable housing are defined in Appendix A.

3.17 Information on the tenure of conversions is available from 2010. In 2014/15 127 (gross) conversions provided market housing and 0 provided affordable housing.

**Table 7: Gross annual completions by tenure<sup>6</sup>**

	Year	Market (Private Sector)	Affordable		Total
			RSL	Local Authority	
New Build	2003/04	149	26	0	175
	2004/05	206	109	0	315
	2005/06	270	44	0	314
	2006/07	217	94	0	311
	2007/08	142	44	0	186
	2008/09	85	0	0	85
	2009/10	59	0	0	59
	2010/11	26	198	16	240
	2011/12	40	17	22	79
	2012/13	42	14	0	56
	2013/14	22	0	0	22
	2014/15	55	45	66	166
	<b>Total</b>	<b>1,313</b>	<b>591</b>	<b>104</b>	<b>2,008</b>
Conversion	2010/11	54	0	1	55
	2011/12	175	12	1	188
	2012/13	104	20	7	131
	2013/14	123	0	0	123
	2014/15	127	0	0	127
	<b>Total</b>	<b>583</b>	<b>32</b>	<b>9</b>	<b>624</b>

## g. Completions by Density

3.18 The NPPF requires local planning authorities to set out their own approach to housing density to reflect local circumstances. The current Blackpool Local Plan requires a net density of 30-50 dwellings per hectare, or greater than 50 dwellings per hectare on sites along public transport corridors or close to the town centre, district or local centres.

3.19 In 2014/15, 40% of dwellings were completed on sites with densities below 30 dwellings per hectare, 8% achieved 30-50 dwellings per hectare and 52% of schemes were built at densities above 50 dwellings per hectare.

**Table 8: Gross new build completions by density in 2014/2015**

Density	Dwellings
Below 30 dwellings per hectare (net site area)	67
30-50 dwellings per hectare (net site area)	13
Above 50 dwellings per hectare (net site area)	86
<b>Total</b>	<b>166</b>

<sup>6</sup> The figures relate to permitted new housing stock, and do not include changes in tenure of existing stock.

---

## h. Other Sources of Additional Dwellings

3.20 So far, figures have been presented on completed dwellings with planning permission. However, it is important that the HMR also considers additional completions that have occurred from other sources.

- **Certificate of Lawful Use (CLDE)** - since 1<sup>st</sup> April 2003, 984 new dwellings have been granted a certificate of lawful use. However, the date in which the vast majority of these properties were converted was pre 2003, before the current plan period<sup>7</sup>. Only those dwellings granted a CLDE that were converted post 2003 i.e. during the current plan period are therefore included as additional supply. As at the 31<sup>st</sup> March 2015, this figure is **157** dwellings (see Table 9 or Appendix D for a detailed schedule).
- **Lawful Development Certificate for a Proposed Use (CLUP) / Prior Approval for Change of Use (CPA)** - included in this year's monitoring report for the first time, in part as a timely response to the new permitted development rights introduced for change of use proposals. Figures for new dwellings created after being granted a lawful development certificate for a proposed residential use are published from 1<sup>st</sup> April 2007 onwards; while figures for new dwellings created after being granted a prior approval for change of use from commercial to residential are published from 1<sup>st</sup> April 2013 onwards. Collectively, these amount to **120** dwellings at the 31<sup>st</sup> March 2015 (see Table 9 or Appendix D for a detailed schedule).
- **Local Authority Conversions (LAC)** - also included in this year's monitoring report for the first time. Figures are published from 1<sup>st</sup> April 2012 onwards which aligns with the start of the Core Strategy plan period. This mostly relates to the conversion of local authority owned 1 and 2 bedroom flats into larger single dwellings, and whilst resulting in a net loss of dwellings, the

programme is important to improve Blackpool's housing offer. This figure amounts to a **net loss of 79** dwellings as at the 31<sup>st</sup> March 2015.

- **Council Tax Records (CTR)** show a large number of additional dwellings have been created since 2003 without the benefit of planning permission, a CLDE, a CLUP or a CPA. Where appropriate, action is being taken against conversions that are unlawful. However, many dwellings have resulted from the conversion of holiday flats (where the historical permission for holiday flats allows them to be used as permanent residential flats within the same use class), or evidence suggests they have been in existence for at least four years and whilst the use has not been regularised with a CLDE or a CLUP, they are effectively deemed to be in lawful use and exempt from further action. In the absence of any planning history, a reasonable assumption has been made that the conversion was completed in the year it first appeared on CTR as a residential use. As at the 31<sup>st</sup> March 2015, this figure is **438** dwellings (see Table 9).

3.21 Table 9 shows that in 2014/15, 110 'other lawful conversions' were created without planning permission (36 were subject to a CLDE, 30 a CLUP/CPA, 34 appeared on CTR<sup>8</sup>, and 10 were created using 'Empty Homes' funding). Since 1<sup>st</sup> April 2003, an additional **646** dwellings have been created from 'other lawful conversions' (or 725 dwellings excluding the net loss of 79 dwellings from the LAC programme).

3.22 The figures recorded from CTR are fluid and may be different from those published in previous reporting years. This is because there may be a change in circumstance for some properties e.g. the closure of an ongoing enforcement investigation (the property would then be added to the year it appeared on CTR) or the submission of a planning application or CLDE (the dwelling would then be removed to avoid double counting).

---

<sup>7</sup> This is because their lawful use relates to them already being established as a permanent residential use for four years or more.

---

<sup>8</sup> These 14 properties are deemed to be in lawful use and exempt from further action. There are other properties which appeared on CTR being investigated by enforcement and are therefore not included.

3.23 In the future, ongoing monitoring, enforcement and inspection of properties, the introduction of Selective Licensing, and an Article 4 Direction controlling the change of use from a house to a house in multiple occupation (HMO) are all expected to help reduce the number of unlawful conversions.

**Table 9: Revised annual net completions 1<sup>st</sup> April 2003 - 31<sup>st</sup> March 2015 including other sources of additional dwellings**

Year	New Build	Permitted Conversions	Other Lawful Conversions					Total Dwellings

### i. Summary of Housing Delivery against Local Plan Requirement

3.24 Against the proposed Core Strategy target of 250 dwellings per annum, in the first five years, there is a shortfall in delivery of 291 dwellings over the period 2012-2015. Despite this, the Council has a deliverable 5.7 year housing supply.

Further information can be found at

[www.blackpool.gov.uk/corestrategy/examination](http://www.blackpool.gov.uk/corestrategy/examination)

3.25 Where past completion figures vary from previous HMRs, this is largely due to the fluidity of the figures recorded from Council Tax Records (see paragraph 3.24 above) or the additional information published from 'other sources' due to improved monitoring procedures.

**Table 10: Completions against Local Plan requirement**

Year	Dwelling Completions	Core Strategy Requirement	Under/Over Delivery
2003/04	248	-	-
2004/05	313	-	-
2005/06	414	-	-
2006/07	361	-	-
2007/08	307	-	-
2008/09	366	-	-
2009/10	210	-	-
2010/11	306	-	-
2011/12	287	-	-
2012/13	149 <sup>9</sup>	250	-101
2013/14	-53 <sup>10</sup>	250	-303
2014/15	363 <sup>11</sup>	250	+113
<b>Total</b>	<b>3,271</b>	<b>750</b>	<b>-291</b>

<sup>9</sup> 128 permitted completions + 49 additional homes from 'other lawful conversions' – 28 homes lost through the Local Authority conversion programme.

<sup>10</sup> -27 completions were estimated in the housing trajectory for 2013/14 (set out in the 2013 SHLAA Update)

<sup>11</sup> 253 permitted completions + 110 additional homes from 'other lawful conversions'

## 4. HOUSING COMMITMENTS

### a. New Dwellings Permitted in 2014-15

4.1 Monitoring planning permissions allows us to identify the potential amount of house building activity for future years. **295** dwellings (gross) were granted planning permission in 2014/15, comprising **161** new build dwellings and **134** conversions. The net total was **212** dwellings, comprising **117** new build and **95** conversions. **95** dwellings were permitted on Greenfield land.

4.2 Where the number of dwellings approved at outline stage is unknown, this figure is estimated from the site's capacity. Once a reserved matters application is approved, the figures are updated accordingly and recorded as a full planning permission. The outline application is removed from the list of extant permissions to avoid double counting. Where the application involves the renewal of a lapsed permission, the earlier permission is deleted to avoid double counting.

**Table 11: Gross & net dwellings permitted 1<sup>st</sup> April 2014 - 31<sup>st</sup> March 2015**

Type of Land	Gross			Net		
	New Build	Conversion	All dwellings	New Build	Conversion	All dwellings
PDL	66	134	<b>200</b>	22	95	<b>117</b>
Greenfield	95	-	<b>95</b>	95	-	<b>95</b>
<b>Total</b>	<b>161</b>	<b>134</b>	<b>295</b>	<b>117</b>	<b>95</b>	<b>212</b>

### b. Extant Planning Permissions

4.3 At the 31<sup>st</sup> March 2015, there was a net stock of **1,439** dwellings with extant planning permission (full or outline<sup>12</sup>) that have not been completed but are committed for development. This comprises **1,240** new build dwellings and **199** conversions. 88% have full planning permission (on sites which have not started or are under construction), which can be implemented without the need for further approval. A detailed schedule is provided in Appendices E and F. Those sites with extant planning permission will be included in the Council's five year housing supply, with an appropriate phased supply figure.

**Table 12: Net extant planning permissions at 31<sup>st</sup> March 2015**

Type of Planning Permission / Site Status	No. of New Build Dwellings	No. of Conversions	All Dwellings
Full Planning Permission	1070	199	1269
(Site Under Construction)	110	-	110
(Not Started on Site)	960	-	960
Outline Planning Permission	170	-	170
<b>Total All Permissions</b>	<b>1240</b>	<b>199</b>	<b>1439</b>

<sup>12</sup> A full planning permission is extant if either the time limit for commencement has not yet expired or the site is partially under construction. An outline application is extant if the time limit for submission of reserved matters has not yet expired.

### c. Extant New Build Planning Permissions by Dwelling Type

4.4 At the 31<sup>st</sup> March 2015, a large proportion of gross new build dwellings with extant planning permissions are terraced (36%) compared to flats (24%), semi-detached (23%) and detached (17%) dwellings. Where the mix of dwelling types is unknown at the outline stage, this is stated.

**Table 13: Gross new build extant planning permissions by dwelling type at 31<sup>st</sup> March 2015**

Type of PP / Site Status	Detached	Semi-Detached	Terraced	Flats	Unknown	Total
Full Planning Permission	203	263	393	257	0	<b>1116</b>
(Site Under Construction)	11	20	41	40	0	<b>112</b>
(Not Started on Site)	192	243	352	217	0	<b>1004</b>
Outline Planning Permission	71	111	180	130	0	<b>492</b>
<b>Total All Permissions</b>	<b>274</b>	<b>374</b>	<b>573</b>	<b>387</b>	<b>0</b>	<b>1608</b>
<b>% Total</b>	<b>17%</b>	<b>23%</b>	<b>36%</b>	<b>24%</b>	<b>0%</b>	<b>100%</b>

### d. Extant Planning Permissions for Affordable Housing

4.5 During 2014/15, **26** (gross) affordable housing units were permitted; 26 units approved in full and 0 units approved in outline. All of the units approved are new build units.

4.6 At the 31<sup>st</sup> March 2015, the total number of affordable housing units with extant planning permission was **195** (gross); these are all new build units. This equates to 10% of all gross extant planning permissions committed for development.

**Table 14: Gross extant planning permissions for affordable housing**

	Site Status	Private Sector Commitment	Affordable Housing Commitment
<b>New Build</b>	Full Planning Permission	1031	85
	Outline Planning Permission	382	110
	<b>Total</b>	<b>1413</b>	<b>195</b>
<b>Conversion</b>	Full Planning Permission	260	0
	Outline Planning Permission	0	0
	<b>Total</b>	<b>260</b>	<b>0</b>

### e. Land Committed for New Build Residential Development

4.7 At the 31<sup>st</sup> March 2015, the combined site area of extant planning permissions for new build residential development amounted to 56.06 hectares. In addition, there are two remaining allocated sites in the current Blackpool Local Plan without extant planning permission. These sites are located on Lytham Road (site ref H2) and to the rear of Westfield Avenue (site ref H3). Site H2 comprises 0.2 hectares of PDL with a potential net capacity of 20 dwellings, assuming a density of 100 dwellings per hectare. Site H3 comprises 0.15 hectares of PDL with a potential net capacity of 7 dwellings, assuming a density of 50 dwellings per hectare<sup>13</sup>. Site H3 had outline planning permission in 2005, which has expired.

**Table 15: Land committed for new build residential development at 31<sup>st</sup> March 2015**

Site Status	Hectares	Net No. Dwellings
Land with Planning Permission	55.71	1350
(Full Planning Permission)	38.45	1180
(Outline Planning Permission)	17.26	170
Land Allocated for Housing	0.35	27
<b>Total</b>	<b>56.06</b>	<b>1377</b>

### f. Applications Approved Subject to a Signed Section 106 Agreement

4.8 At the 31<sup>st</sup> March 2015, there were **174** dwellings (net) approved subject to a signed Section 106 agreement (all new build developments). This includes applications to renew full or outline planning permissions where the original permission has expired (to avoid double counting the original permission was not included as a commitment in the list of extant planning permissions).

**Table 16: Net extant planning applications approved subject to a signed s106 agreement at 31<sup>st</sup> March 2015**

Site Status	No. New Build Dwellings	No. Conversions	Total
Full Planning Permission	14	0	14
Outline Planning Permission	160	n/a	160
<b>Total All Permissions</b>	<b>174</b>	<b>0</b>	<b>174</b>

<sup>13</sup> Both the 100 and 50 dwellings per hectare density calculations are consistent with the 2008 SHLAA methodology.

---

## Appendix A: Glossary of Terms

**Affordable Housing** - Social rented, affordable rented and intermediate housing, provided to eligible households whose needs are not met by the market. Eligibility is determined with regard to local incomes and local house prices. Affordable housing should include provisions to remain at an affordable price for future eligible households or for the subsidy to be recycled for alternative affordable housing provision.

**Allocated** - Land which has been specifically identified in a Local Plan for housing development. The HMR includes sites allocated for housing development in the current Blackpool Local Plan (adopted in 2006) as well as in the previous local plan which was relevant in the early plan period (i.e. 2003-2006) before being superseded.

**Complete** - A dwelling is said to be complete once it is ready for occupation. For new build dwellings, this is when the roof is on and the windows/doors are in as determined by site survey. For conversions, this is when the Council Building Control records indicate a completion certificate has been issued, or where this is unavailable, when the dwellings are recorded on the Council Tax records / Valuation office.

**Greenfield** - An area of land that has never been developed or built on.

**Identified** - Land that has previously been identified through the Strategic Housing Land Availability Assessment (SHLAA). Where sites are identified they are no longer windfall sites.

**Market Housing** - Private housing for sale or rent where price is not controlled and is set in the open market.

**Previously Developed Land** - Land which is or was occupied by a permanent structure, including the curtilage of the developed land (although it should not be assumed that the whole of the curtilage should be developed) and any associated fixed surface infrastructure. This excludes: land that is or has been occupied by agricultural or forestry buildings; land that has been developed for minerals extraction or waste disposal by landfill purposes where provision for restoration has been made through development control procedures; land in built-up areas such as private residential gardens, parks, recreation grounds and allotments; and land that was previously-developed but where the remains of the permanent structure or fixed surface structure have blended into the landscape in the process of time.

**Under Construction** - A dwelling has commenced when the ground has been excavated in preparation for the laying of foundations. At any time between commencement and completion (see above) a building is 'under construction'.

**Windfall** - Sites which have not been specifically identified as available in existing Local Plans or SHLAAs. They normally comprise previously-developed sites that have unexpectedly become available, and include residential conversions.

## Appendix B: Schedule of new build completions and demolitions 2014/15

Planning App No.	Address	Land Type	Origin	Gross Dwellings Built	Demolitions	Net Dwellings Built
